Dear sponsor,

How are you? How is your family? For me and my family is okay. Am writing this letter to thank you for the care and help you have given me and the support you have given my family. I have graduated this year in the vocational studies and were given our certificates by the ministry of education who encouraged the kind of education we have.

I passed well my vocational subject and got an A. I missed you and wished if you came on my graduation I would have enjoyed more. I wish to continue and add on my certificate to become an electrical engineer. Am concluding by thanking for the letters you sent for me and I send greetings to Ruel Bon, Alloy, Beppy and your family.

Yours faithfully
